

RIESENRAD »JUPITER«

»JUPITER« FERRIS WHEEL
GRANDE ROUE »JUPITER«
REUZENRAD »JUPITER«

Art. Nr. 140470

D

Vor Beginn des Bastelns sollten Sie sich mit den Spritzlingen und der Anleitung vertraut machen. Sollte es einmal vorkommen, dass ein Teil im Bausatz fehlt, kreuzen Sie bitte das fehlende Teil in der Anleitung an und schicken Sie diese bitte an Fa. Gebr. FALLER GmbH, Abt. Kundendienst, kundendienst@faller.de, Kreuzstraße 9, 78148 Gütenbach. Sie erhalten dann umgehend Ersatz. In diesem Bausatz sind einige Kunststoffteile übrig.

GB

Before beginning with the assembly please familiarize yourself with the parts and read the instructions carefully. In case of missing parts please indicate these on the instructions leaflet with a circle and return the leaflet to Gebr. FALLER GmbH, kundendienst@faller.de, Kreuzstraße 9, D-78148 Gütenbach, Germany. You will receive the replacement by return. Some of the parts in this box are not needed to construct the model.

F

Avant de commencer le montage de votre maquette bien lire la notice et repérer les grappes. Si une pièce manque dans une boîte, cochez la pièce correspondante sur la notice et renvoyez-la-nous à Gebr. FALLER GmbH, kundendienst@faller.de, Kreuzstraße 9, D-78148 Gütenbach (R.F.A.). Nous vous ferons parvenir la pièce par retour. Dans cette boîte se trouvent quelques pièces qui ne seront pas utilisées pour le montage.

NL

Vóór het bouwen zou men de gielstukken en de handleiding moeten bestuderen. Indien onverhoopt een onderdeel aan het bouwpakket ontbreekt, gelieve men het ontbrekende deel in de handleiding aan te kruisen en deze te zenden aan Gebr. FALLER GmbH, kundendienst@faller.de, Kreuzstraße 9, D-78148 Gütenbach. U ontvangt dan omgaand en gratis het ontbrekende onderdeel. Van dit bouwpakket worden enkele kunststof delen niet gebruikt.

Für den Zusammenbau des Modells empfehlen wir folgende FALLER-Artikel (sind nicht im Bausatz enthalten):
For the assembly of the kit we recommend following FALLER products (not included in the kit):
Pour l'assemblage du modèle, nous vous recommandons les articles FALLER suivants (non inclus dans le kit):
Om dit model te bouwen adviseren wij de volgende FALLER producten (maken geen deel uit van deze bouwset):

Art. Nr. 170492
FALLER-EXPERT

Flüssigkleber in Plastikflasche mit Spezialkanüle für feinste Klebstoffdosierung.

Liquid cement in plastic bottle with canule for very fine dosage.

Colle liquide en bouteille plastique avec bec verseur pour un dosage précis.

Vloeibare lijm in plastic-flacon met doseerbuisje om nauwkeurig te lijmen.

Art. Nr. 170688
SPEZIAL-SEITENSCHNEIDER

zum gratfreien Abtrennen von feinsten Spritzteilen.
Nur für Polystyrol geeignet.

Special side cutter for cutting off ultra-fine moulded parts without burrs.
Only suitable for polystyrene.

Pince coupante spéciale pour couper sans bavure les pièces miniatures moulées par injection. Convient uniquement au polystyrène.

Speciale zijknijptang voor het braamloos afknippen van de fijnste gielstukdelen. Alleen geschikt voor polystyrol.

Diese Anleitung beinhaltet auch den Einbau des Beleuchtungssets Art. Nr. 140471.
Bei späterem Einbau des Beleuchtungssets wird diese Anleitung benötigt !

These instructions also include the building of the lighting set Art. No. 140471.
These instructions are needed, if the lighting set is built in at a later time.

La présente notice de montage contient également l'installation du jeu de lumières de Réf. 140471.
On aura donc besoin de la présente notice de montage si on installe le jeu de lumières a posteriori.

Deze handleiding gaat ook in op het bouwen van de verlichtingset Art. Nr. 140471.
Bij het achteraf monteren van de verlichtingset is deze handleiding nodig.

Drahteinbau

Der Einbau des Drahts erfolgt über vier Abschnitte auf beiden Seiten (siehe Abb. m). Hierzu wird der beiliegende Draht in acht Teile à 70 cm geschnitten und gerade gezogen. Nach 26 cm des ersten Drahtstückes wird bei Niete x 1 eine halbe Schlaufe gelegt (auf Rillenstellung der Mittelnabe 4/7 achten (siehe Abb. m)). Der Draht verläuft in der Rille **spannungsfrei** zur nächsten Niete und wird dort mit einer ganzen Schlaufe befestigt. Dieser Vorgang wird noch 7 mal wiederholt. Zum Abschluß des ersten Segments wird wieder nur eine halbe Schlaufe um die Niete gelegt. Verlegen Sie den Draht für die Segmente 2, 3 und 4 sowie bei Segment 1 (siehe Abb. k). An allen Anfangspunkten (x 1 - x 4) befinden sich zwei Drahtenden (26 cm + Reststück). Die kürzeren Reststücke werden um die inneren Streben gewickelt (siehe Abb. l). Verlegung von Endstück 26 cm (siehe Abb. n).

Wire mounting

Wire mounting is done across four sections on both sides (see Fig. m). For this purpose, the available wire is cut into eight parts of 70 cm each and pulled straight. A half-loop is laid at rivet x 1 after 26 cm of the first wire length (observe groove position of central hub 4/7 (see Fig. m.)). The wire runs **tension-free** in its groove up to the next rivet where it is fastened with a full loop. At the end of the first segment, a half-loop only is again put around the rivet. Run the wire for the segments 2, 3 and 4 and at segment 1 (see fig. k). Two wire ends (26 cm and the remaining piece) are located at all starting points (x 1 - x 4). Wind the shorter remaining Pieces around the inside braces (see Fig. l). For laying the wire end piece 26 cm (see Fig. n).

Pose du fil

La pose du fil se fait en quatre tronçons de chaque côté (voir Fig. m). Pour cela, on coupe le fil joint en huit sections de 70 cm chacune et on les étire pour les redresser. Après 26 cm du premier morceau de fil, on pose une demi-boucle au rivet x 1 (veiller à ce que le moyeu central se trouve dans les gorges (voir Fig. m)). Le fil chemine dans la gorge **sans tension** jusqu'au prochain rivet où on le fixe à l'aide d'un nœud coulant complet. On répète l'opération encore 7 fois. À la fin du premier segment on ne pose à nouveau qu'une demi-boucle autour du rivet. Posez le fil pour les segments 2, 3 et 4 ainsi que pour le segment 1 (voir Fig. k). À tous les points de départ (x 1 à x 4) se trouvent deux extrémités de fil (26 cm et le morceau résiduel). On enroule les morceaux résiduels les plus courts autour des piliers intérieurs (voir Fig. l). Pour la pose de l'extrémité de fil de 26 cm, voir Fig. n.

Draadmontage

De draad wordt gemonteerd in 4 fasen aan beide zijden (zie afb. m). Daarvoor wordt de bijgevoegde draad in acht delen à 70 cm gesneden en rechtgetrokken. Na 26 cm van het eerste draadstuk wordt bij klinknagel x 1 een halve lus gelegd (let op gleufstand van de middelste naaf 4/7 (zie afb. m)). De draad loopt in de gleuf **spanningsvrij** tot aan de volgende klinknagel en wordt daar met een hele lus bevestigd. Deze procedure wordt nog 7 mal herhaald. Aan het einde van het eerste segment wordt weer slechts een halve lus om de klinknagel gelegd. Leg de draad aan voor segment 2, 3 en 4 alsmede bij segment 1 (zie afb. k). Op alle beginpunten (x 1 - x 4) bevinden zich twee draaduiteinden (26 cm en het reststuk). De kortere reststukken worden om de binnenste stutten gewikkeld (zie afb. l). Voor het aanleggen van het draad-eindstuk 26 cm (zie afb. n).

Die vier Draht-Endstücke (26 cm) in die Nabe legen und mit Sekundenkleber fixieren! Riesenrad drehen und auf der Rückseite den Draht in gleicher Weise einbauen. **Die überstehenden Enden am Lochrand abtrennen.**
 Put the four wire end pieces (26 cm) into the hub and fix them with split-second cement. Turn the Ferris wheel and mount the wire on the rear side in the same way. **Cut off the ends protruding the perforated rim.**
 On place les 4 extrémités de fil (26 cm) dans la moyeu et on les fixe à l'aide d'une colle instantanée ! Faire tourner la Grande Roue et poser le fil de la même façon sur le côté arrière. **Couper les bouts qui dépassent au bord du trou.**
 De 4 draad-eindstukken (26 cm) in de naaf leggen en met secondenlijm fixeren ! Reuzenrad draaien en aan de achterzijde de draad op dezelfde manier monteren. **De uitstekende uiteinden aan de rand van het gat afsnijden.**
